### **West Valley City to Implement Citywide Recycling Program**

WEST VALLEY CITY – Blue recycling containers have started to pop up throughout West Valley City in preparation for the new citywide recycling program. Public Works crews began delivering the new containers to residents who currently receive sanitation services through the City. The new bi-weekly program is slated to begin on March 3, 2008 and will be picked up the same day as residents' regular garbage collection. The new service will only cost an additional \$3.30 per month, bringing the monthly amount to \$13.30.

Last fall, West Valley City Council voted to change the service from a subscription service to a full citywide service in an effort to reduce the number of extra regular garbage cans residents purchase for a monthly fee. The price for an extra regular garbage container will remain at \$6.45 per month. Recycling will help save landfill space and reduce the disposal costs at the local landfills. Recycling also contributes to saving our natural resources.
